

**LITTLE DANDY NET™**  
**FREEMAN BY DESIGN CORPORATION**  
ANIMAL HANDLING PRODUCTS FOR PROFESSIONALS.  
[www.FreemanByDesign.com](http://www.FreemanByDesign.com)

**Please fully read these directions and warnings before proceeding.**

**A Few Tips:**

Good for animals the size of a cat and under.

To confine an animal within the netting, hold both cords and push the cordlock device tight against the netting. To release the cordlock, with one hand pull back on the inner white wheel of the lock while pulling back on the locking device.

A handy zipper at the bottom of the net bag allows for easier releases or inspections of animals. Please ensure the zipper is closed before using the net.

Always store this net away from direct sunlight.

**Be Gentle**

If you treat this device more like an instrument than a tool, it will serve you well for years to come. Yes you can spray this unit all you like. It is made with no rust aluminum and stainless steel. The netting is 100% nylon & will not rot. You may find it helpful to add a fabric softener in the dip wash to help soften the stiffness in the netting due to disinfecting the net.

Do not use bleach it will damage the netting and mechanisms.

The LITTLE DANDY NET is a mini version of the HAMMOCK NET.

For fast field captures up to and beyond 12Kgs(25lbs) check out the famous **FREEMAN HAMMOCK NET**. Features a flex hoop a deep expanding net bag for larger captures, a quick locking cord lock to seal the animal in the net bag for inspection or travel and an extending/collapsing handle.

Available exclusively from **ACES, Inc.**
